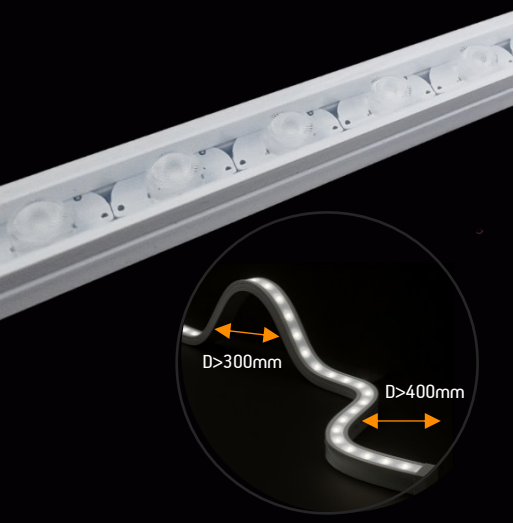
3D WALLWASHER



The 3D LED wallwasher provides full bending capabilities - both vertically and sideways - allowing it to conform to complex architectural shapes. This advanced flexibility makes it suitable for dynamic facades, circular columns, wave-like structures, and creative design elements. It retains the core function of delivering a narrow, symmetrical light beam for even vertical illumination, no matter the surface geometry.

APPLICATION

- Signage and branding
- Architectural lighting
- Interior design
- Landscape and outdoor lighting
- Stage and event lighting

FEATURES & BENEFITS

- Side & vertical bending
- For outdoor applications
- Easy and fast installation
- 5-years warranty

5 YEARS WARRANTY | 38° | IP 67
